Subject: ASR #8209 attached for your quick review
Attachments: Alt-En -- Analytical Services Request (ASR) Form.pdf; ASR 8209.pdf

I've attached the ASR #8209 for your quick review.

I left the ASR (w/info attached) in your in box for the EPA analyst (w/backups) assignments and can wait until you return to the STC.

I just wanted you to take a look at the ASR before I accepted it and emailed it out to all. Let me know if its ok or what you would like for me to change/correct.

Thanks...Nicole ☺

Subject: Alt-En Ethanol Plant -- Nebraska NDEQ's ASR Form

Tabatha, Mike, and/or Nicole:

I could not get the sample details box at the bottom of the form to populate / allow editing. If the form is adequate otherwise I can either print it and write in the sample details by hand or if you are willing to add that info by hand that would be wonderful. The details are: Two wastewater samples, one wet-cake sludge, and one seed corn composite sample, each being analyzed for total and TCLP metals, and also each for the additional mercury total and TCLP analyses.

Let me know if you need anything changed or added to the form.

Thanks for being responsive to this time critical project.
